List of Publications from 1999, Patrick van Hees

Peer-review articles in international publications

VAN HEES, Patrick, et al, ”An overview of real scale tests in the FIPEC project”, Interflam conference proceedings, Edinburg, UK, juni 1999.

VAN HEES, Patrick, et al, ”Use of zone and field models for the fire investigation of the Switel Hotel fire (Antwerp 1994)”, Interflam conference proceedings, Edinburg, UK, juni 1999.

VAN HEES, Patrick, WICKSTRÖM, Ulf and MESSERSCHMIDT, Birgitte, ”Prediction of SBI test results by means of Cone Calorimeter test results”, Interflam conference proceedings, Edinburg, UK, juni 1999.

VAN HEES, Patrick, and MESSERSCHMIDT, Birgitte, " Influence of delay times and response times on heat release measurements”, Fire and Materials, Volume 24, nr 2, pp 121-130, 2001.

AXELSSON, Jesper, ANDERSSON, Petra, LÖNNERMARK, Anders, VAN HEES, Patrick and WETTERLUND, Ingrid “Uncertainty of HRR and SPR measurements in SBI and room/corner test, Interflam proceedings pp 485-494, Edinburgh, September 2001.

VAN HEES, Patrick, JOHANSSON, Patrik, “The need for full-scale testing of sandwich panels – Comparison of full-scale tests and intermediate scale tests, Interflam proceedings pp 495-504, Edinburgh, September 2001.

VAN HEES, Patrick and AXELSSON, Jesper and GREEN, Andrew (Fire Testing and Technology, UK), “Development of a composite pyrolysis model for prediction of the heat release rate from cables by means of material testing in the cone calorimeter”, Interflam Edinburgh proceedings pp 1107-1116, September 2001.

INGASON, Haukur, WICKSTRÖM, Ulf and VAN HEES, Patrick “The Gothenburg discotheque fire investigation, Interflam Edinburgh proceeding pp 965-976, September 2001.

VAN HEES, Patrick AXELSSON, Jesper ”Mathematical modeling in the European Union Project FIPEC” Fire and Materials Journal 25 nr 4 pp 169 2001.

VAN HEES, P, AXELSSON, J, VERCELLOTTI, U, BREULET, H, GREEN, A and GRAYSON S, ”Assessing the fire performance of electric cables (FIPEC)”, Fire and Materials Journal Volume 25 nr 2 pp. 49-60, 2001.

VAN HEES, Patrick AXELSSON, Jesper, GREEN, A”Mathematical modeling in the European Union Project FIPEC” Fire and Materials Journal Volume 25 nr 4 pp 169, 2001.

AXELSSON, Jesper, VAN HEES, Patrick, New data for sandwich panels on the correlation between the SBI test method and the room corner reference scenario, pp53-59, Fire and Material Journal nr 29, Wiley 2005

P. ANDERSSON and P VAN HEES, Performance of Cables Subjected to Elevated Temperatures, Eighth International Symposium on Fire Safety Science, Beijing China September 2005

YAN Z, BLOMQVIST, P, VAN HEES, P et al “Validation of CFD model for simulation of spontaneous ignition of Bio-mass fuel storage“ Proceedings of the 8th international symposium on fire safety science, IAFSS 2005

R.H. KRÄMER, P. BLOMQVIST, P.VAN HEES, U.W. GEDDE, “On the intumescence of ethylene-acrylate copolymers blended with chalk and silicone”, Polymer Degradation and Stability 92 (2007) pp 1899-1910. Elsevier, 2007

International Articles, books or chapters in books

GRAYSON, Steve, VAN HEES, Patrick, Vercellotti, Uberto, Breulet, Hervé and Green, Andrew "Fire Performance of Electrical cables - new test methods and measurement techniques, Final report of EU SMT project SMT4-CT96-2059 rapport", ISBN 0 9532312 5 9 Interscience Communications UK, 2000.

Chapters on Belgian, Dutch regulation and test method in Plastics flammability handbook, edited by Jürgen Troitzsch, Wanser publishers, 2004f

Chapter on Fire Behaviour of sandwich panels in Flammability testing of materials used in construction, transport and mining, book edited by Vivek Apte, ISBN 978-1-85573-935-2 Tryckort Cambridge, Woodhead publishing Ltd England, 2006

Chapters on pyrolysis models and conetools in a book to be published on innovative multifunctional barriers in textiles, paper and leather, Elseviers, publication date 2007.

VAN HEES, Patrick, AXELSSON, Jesper, TUOVINEN, Heimo and KARLSSON, Björn, "Implementationof a physical flame spread model in the SOFIE CFD code", 45 pages, SP report, 1999 nr 32, ISBN 91-7848-790-0.

ANDERSSON, Petra and VAN HEES, Patrick, "Performance of cables subject to thermal radiation", 43 pages SP report, 2000 nr 24, ISBN 91-7848-822-2.

GRAYSON, Steve, VAN HEES, Patrick, VERCELLOTTI, Uberto, BREULET, Hervé and GREEN, Andrew "Fire Performance of Electrical cables - new test methods and measurement techniques, Final report of EU SMT project SMT4-CT96-2059 rapport", ISBN 0 9532312 5 9 published by Interscience Communications UK.

NORTH, G., KARLSSON, B., GOJKOVIC, D., VAN HEES, P., "Simple Analytical and Numerical Techniques for Modelling Flame Spread on Solids", Report 3117, Dept. of Fire Safety Eng., Lund University, Lund, 2000.

VAN HEES, Patrick, "Semi-Natural Fire test for facades and curtain walling systems", 39 s, SP AR, 2000 nr 39. NORDTEST 2000.

TUOVINEN, Heimo , VAN HEES, Patrick, AXELSSON, Jesper (SP) and KARLSSON, Björn (LTH), ”Implementation of a physical flame spread model in the SOFIE CFD model”, 2001, 45 pages, SP Report 1999, nr 32, ISBN 91-7848-790-0.

ANDERSSON, Petra, VAN HEES, Patrick, ” Performance of cables subject to thermal radiation”, 2001, 45 pages, SP Report 2000, nr 24, ISBN 91-7848-822-2.

JOHANSSON, Patrick and VAN HEES, Patrick ”Development of a Test Procedure for Sandwich Panels using ISO 9705 Philosophy”, 2001, 46 pages, report 2000, nr 26, ISBN 91-7848-827-0 NORDTEST 2000.

AXELSSON, Jesper, ANDERSSON, Petra, LÖNNERMARK, Anders, VAN HEES, Patrick and WETTERLUND, Ingrid ”Uncertainties in Measuring Heat and Smoke Release Rates in the Room/Corner Test and the SBI”, 2001, 45 pages, SP report 2001, nr 04. ISBN 91-7848-8, NORDTEST 2001
