

LUND
UNIVERSITY

Department of Fire Safety Engineering

Fifth Nordic FDS user group meeting at Lund University

Date: 24 October 2019

Place: Faculty of Engineering, Lund University (exact location will be announced later)

Cost: No fee. Lunch is at own cost

The fifth Nordic FDS workshop will be hosted by Lund University.

The purpose of this workshop is knowledge sharing in the fire engineering community when using FDS for modelling of fires and for modelling of evacuation.

One of the topics will be the modelling of complex geometries in FDS. We would like to cover a number of different issues and therefore we invite the participants to short presentation (20 min) of problems/challenges or solutions found by the users when using FDS. Each presentation will be followed by a short discussion. It is not mandatory to do a presentation.

This is an invitation to submit a title (possibly, also an abstract of no more than 10 lines), if you want to do a presentation at the workshop. Please submit this to bjarne.husted@brand.lth.se no later than 1st October 2019.

The language of the workshop will be English.

To attend the workshop, please email bjarne.husted@brand.lth.se no later than 15. October 2019.

Preliminary Programme: (depends on the presentation received)

10:00-10:15 Welcome

10:15-12:00 Workshop

12:00-13:00 Lunch

13:00-16:00 Workshop
